

Dear UB-04 Subscriber:

Thank you for your order of the 2012 Edition of the UB-04 Manual. The subscription includes the 2012 manual as well as access to a searchable NUBC Minute Archive from 1998 to the present. The 2012 manual will become **available on July 1, 2011** via download from the NUBC website. The 2012 UB-04 Manual and Minute Archive are both PDFs secured with Adobe Policy Server. Adobe Acrobat 7.0 or Adobe Reader 7.0 and later is REQUIRED to access these files.

**For New Subscribers:**

There are 3 easy steps to get your manual. (More details below.)

- Register
- Activate
- Go to the NUBC website

A short registration process is necessary to activate your subscription. After your check is received or your credit card has been authorized by Google, you will receive an email invitation to register your manual; shortly afterwards you will receive another email to activate your subscription. After July 1, 2011 both emails will be from [policyserver@aha.org](mailto:policyserver@aha.org).

Note that some email systems may classify these messages as “bulk” or “junk”, but they are legitimate.

Your Login User Name will be your e-mail address and is non-case sensitive; you will also select a password of at least 8 characters. The site administrator does not have access to password information. There are instructions in the Subscribers Only section of the NUBC website for changing or resetting your password.

After your subscription is activated, you may download your manual from the Subscribers Only section of the NUBC website (<http://www.nubc.org/subscribers/subscribers.html>).

**For Renewing Subscribers:**

Policy Server will send you a notification that your account has been reactivated. No re-registration is necessary.
